

# Solving Business Problems with Technology

Larry Zimblar, president of **Liberteks.com** and Microsoft Certified Small Business Specialist will discuss using today's technology to solve issues as it relates to your small business. Topics will include:

1. Why does your PC or network run slowly?

Top problem areas:	Booting up	Opening programs
Clicking icons	Accessing the network	Browsing the internet

2. Positioning your small business services  
From business card to business prospect to business client
3. Running your business from anywhere in the world  
Everything you need to know about remote desktop connections
4. How to look like a big business with the budget of a small business  
Making the most of free & low cost readily available resources

Questions concerning these topics will be answered throughout the seminar.

**Date: April 10, 2007 – Free Seminar**

**Time: 8:00 a.m.-9:30 a.m.**

**Refreshments will be provided**
